#### Orange Culture.

We take this opportunity to call the attention of parties interested in orange culture to the fact that we have now on hand a large stock of fine plants.

Our trees have been grown on pine land, are perfectly healthy and in good condition for transplanting.

Our budding has been done by Mr. William Wilson, formerly from Kentucky, who has a wide experience in this specialty.

Every precaution has been taken to keep the varieties separate.

We have ready for the market over three hundred thousand (300,000) plants, all orange stocks, varying in age from six months growth, which stand from six inches to three feet in height, to trees four years old, which are three inches in diameter at the base and are ten feet in height.

We especially call attention to our budded stock, of which we have over thirty thousand selected from the best varieties known to the trade, such as Jaffa, Majorca, Malta Oval, Italian, Mediterranean Sweet, Naval Tangerine and Mandarin of the imported fruits, Homestead, Magnum Bonum, St. Michael and others of the native varieties.

Of budded bonums we have Villa Franca, Belair Premium and Sicily.
